ISIOLO

EXPERIENCE

| Google Developer Students Club

KCA University | MAY 2023 - MAY 2024

Leadership: Led a team of 12 developers in designing and developing front end components for various projects,

ensuring responsive and user-friendly interfaces.

Coding: Implemented modern front end technologies such as HTML, CSS, JavaScript (and frameworks like

React.js), enhancing the clubs project capabilities.

| BOMA

ISIOLO | JUN 2024 - JULY 2024

- I collaborated with the Isiolo BOMA PDM team in executing a comprehensive survey across various designated areas, meticulously ensuring the collection of accurate and reliable data. By upholding the highest standards of integrity throughout the process, I effectively contributed to achieving the teams objectives and surpassing the expectations set forth by the BOMA organization.

SKILLS

Programming Languages: JavaScript, C, SQL, c++

Libraries/Frameworks: React

Tools / Platforms: git, VS Code

Databases: MongoDB, SQL

PROJECTS / OPEN-SOURCE

KCAMARKET E-COMMERCE WEB APPLICATION

MongoDB, React, Node.js(MERN stack),

Express.js & Stripe payment integration

Developed KCAMarket, a dynamic multi-vendor e-commerce platform designed to revolutionize online retail by connecting diverse sellers with customers on a unified marketplace. The project addressed key industry challenges like fragmented vendor onboarding, inefficient order management, and poor user experience. Key features include streamlined vendor registration, automated order and inventory management, real-time analytics for data-driven decision-making, a secure payment gateway, responsive customer support, and scalable cloud-based architecture. Adopted Agile methodology for iterative development, ensuring flexibility and continuous improvement. The platform enhances customer satisfaction, drives marketplace growth, and empowers small businesses and artisans through digitalization.
